Heel

See “Short Row Heel – Part 1” Video

Work Row 1 of charted design pattern across 32(36) instep stitches. (**2aat** will work across BOTH insteps.) These stitches will remain unworked during heel construction. The 32(36) sole stitches will form the heel.

Work across heel stitches as follows:

Row 1. Knit to last stitch on heel, W&T.

Row 2. Purl to last stitch on heel, W&T.

Row 3. Knit to stitch before wrapped stitch, W&T.

Row 4. Purl to stitch before wrapped stitch, W&T.

Repeat **Rows 3 and 4** until there are 12(14) unwrapped center stitches ending after **Row 4**. There will be 10(11) wrapped stitches on each side of the center stitches.

Pick up (unwrap) wrapped stitches as follows: **See “Short Row Heel – Part 2” Video**

Row 1. Slip 1, knit to 1st wrapped stitch, lift front leg of wrap from front to back (placing left leg of wrap in front of needle) and knit it together with next stitch through the back loop, turn.

Row 2. Slip 1, purl to 1st wrapped stitch, lift back leg of wrap from back to front (placing right leg of wrap on front of needle) and purl it together with next stitch, turn.

Repeat **Rows 1 and 2** until 1 wrapped stitch remains on each side of heel ending after **Row 2**.

Slip 1, knit across heel stitches and unwrap last stitch on knit side leaving one remaining wrapped stitch on the purl side. (**Do not go back and unwrap!**)

(**2aat** will continue with heel on Sock #1 before moving on to next step.)

Work across instep in Row 2 of charted design pattern. Unwrap last remaining wrap on the knit side by lifting wrap on needle (as on previous knit rows) and knit it together with next stitch through the back loop. Knit remainder of heel stitches.
